

Customized Webinars:

As the global leader in Reproductive Medicine, IVIRMA Global stands out for delivering unparalleled results, boasting the most innovative R&D platform, and maintaining a highly skilled team. By choosing Global Education, you tap into over 30 years of experience and the expertise of our exceptionally qualified professionals.

Our dedication to research and innovation is what sets us apart, ensuring that you receive training from highly qualified and up-to-date experts on the latest advances in the field.

Training & Consulting: Customized webinars

Customized webinars serve as an effective tool for providing interactive online learning to specialists who, due to their high workload and responsibilities, find it challenging to dedicate extended time to training or travel from their place of residence. As live events, they facilitate interaction between the speaker and attendees through features like live chat, questions and answers, surveys, or other participation tools. These sessions are recorded and can be accessed at any time later if participants cannot attend in real-time, providing flexibility.

This approach is particularly attractive and effective in the pharmaceutical industry, hospitals, and clinical groups, as it facilitates effective learning for large groups of specialists who share the same time zone.

A webinar example could be:

> Session 1

2:30 – 3:30 pm (GMT+2)

Daily activity and workflow of the andrology laboratory: organization and procedures

3:30 – 4:30 pm (GMT+2)

Risk and safety management of an IVF laboratory

> Session 2

2:30 – 3:30 pm (GMT+2)

IVF Laboratory Daily Activity and Workflow: Organization and Procedures

3:30 – 4:30 pm (GMT+2)

Quality management in IVF centers: from ISO to Lean Management

> Session 3

2:30 – 3:30 pm (GMT+2)

Establish common SOPs for medical and embryonic procedures

3:30 – 4:30 pm (GMT+2)

Monitoring an active IVF laboratory

> Session 4

2:30 – 3:30 pm (GMT+2)

Quality control and problem solving in an IVF laboratory

3:30 – 4:30 pm (GMT+2)

Problem solving at IVI and reported cases

> Session 5

2:30 – 3:30 pm (GMT+2)

Improving embryo selection: PGT-A and Time-lapse strategies

3:30 – 4:30 pm (GMT+2)

Improving IVF Outcomes: The Value of an Efficient Cryopreservation Program

> Session 6

2:30 – 3:30 pm (GMT+2)

Latest innovations in reproductive medicine and future trends

3:30 – 4:30 pm (GMT+2)

Artificial intelligence in the IVF clinic

> Session 7

2:30 – 3:30 pm (GMT+2)

Quality Management System in a Fertility Clinic

3:30 – 4:30 pm (GMT+2)

IVF treatment as a whole: more accurate ways to measure ART success. How the numerators and denominators influence the result.
