

Theoretical-practical workshops:

As the global leader in Reproductive Medicine, IVIRMA Global stands out for delivering unparalleled results, boasting the most innovative R&D platform, and maintaining a highly skilled team. By choosing Global Education, you tap into over 30 years of experience and the expertise of our exceptionally qualified professionals.

Our dedication to research and innovation is what sets us apart, ensuring that you receive training from highly qualified and up-to-date experts on the latest advances in the field.

Training & Consulting: Theoretical-practical workshops

Theoretical-practical workshops are short-term, in-person courses emphasizing active attendee participation, providing a practical and collaborative learning experience. This learning format seamlessly integrates theoretical sessions in the morning with hands-on training sessions in the afternoon, catering to both embryologists and gynecologists.

This approach proves highly attractive and effective in the pharmaceutical industry, hospitals, and clinical groups, fostering effective and dynamic learning in groups of up to 20 specialists.

Find below an example of the most requested workshop:

> Day 1:

Time	Topic
09:00 - 09:10	Welcome message from the director
09:10 - 10:00	Clinic's tour
